

AquaPure Commercial RO System

Water Purifiers • Project • Price on request

The AquaPure Commercial RO System is designed for cafeterias, factories, hostels and institutions that need large volumes of pure water every day. Its multi-stage membrane process handles high TDS input water and delivers consistent quality with minimal operator effort.

Key Features

- High output capacity for commercial use
- Sediment + carbon + membrane multi-stage process
- SS / FRP pressure vessels with anti-corrosion coating
- Auto flush and low pressure cut-off
- TDS monitor for output water quality
- Turnkey installation and annual service support

Specifications

- Output Capacity: 50 - 500 LPH (Custom)
- Stages: Sediment + Carbon + RO + UV
- Membrane: Thin Film Composite
- TDS Handling: Up to 3000 ppm
- Storage: Up to 500 Litres
- Frame: Powder Coated MS / SS
- Power Input: 0.5 - 3 HP
- Warranty: 1 Year Comprehensive

Applications

- Cafeterias & canteens
- Factories & plants
- Hostels & institutions
- Hospitals
