

Industrial Refrigeration Turnkey Project

Turnkey Projects • Project • Price on request

We design and execute industrial refrigeration plants for cold storage, food processing, dairy, poultry and ice manufacturing. Every project is engineered for the lowest running cost, maximum reliability and compliance with food safety norms.

Key Features

- Plant design and equipment selection
- Compressors, condensers, evaporators & controls
- Cold storage, chilling and ice plant execution
- Automated controls with remote monitoring
- Energy optimised for lowest running cost
- Installation, commissioning and operator training

Specifications

- Scope: Design ? Supply ? Install ? Commission
- Systems: Cold Storage, Ice Plant, Chilling
- Temperature: -30°C to +10°C
- Refrigerants: R-404A / R-717 / R-744
- Plant Capacity: 1 Ton - 100 Ton
- Controls: PLC / SCADA based
- Compliance: FSSAI aligned layouts
- Warranty: 1 Year Comprehensive

Applications

- Cold storage warehouses
- Dairy & poultry
- Food processing units
- Ice plants
